Subject Index Vol. 6

Apatite, synthetic 1

Carbohydrate, dietary 52
Carbonate, dietary 183
Caries 156, 169, 229, 244
– and diet 355
– etiology 334
–, experimental 16, 43, 52, 289
–, monkeys 43
–, rats 52, 183, 203
–, secondary 16

Demineralisation 334
Dental plaque 103
Dentifrice 237
Dentine, carious 60
Developmental disturbances 224
Dextranase 132, 289
Diet 244
– and caries 355

Enamel 156, 169, 334, 346
– biopsy 193
– hypoplasia 224
– surface 312
Enolase inhibition 93
Enzyme kinetics 93
Epidemiology 229, 355
Experimental caries 203, 211, 244

Fluoride 1, 93, 237, 244
–, bone 183
–, dietary 183
– distribution 312
– in enamel 193
– mouth rinse 325

Glycerophosphate 43
Gnotobiosis 203, 211

Hamster 244
Histochemistry 60
Histopathology 16, 156, 169

Invertase 122
Irradiation 298

Lactate 334

Membrane potential 346
– transport 122
Microbiology 211
Microflora, oral 298
Mineral additives 244
Mineralisation 224
Monofluorophosphate 1
Mouth rinses 325

Oral fluoride absorption 325

Phosphate, dietary 183

Phosphate, microbial 34
Plaque 34, 289
– analysis 103
– carbohydrates 103
– matrix 203
– polysaccharides 132
Polysaccharide hydrolysis 132
Polysaccharides in plaque 103

Saliva 148
Salivary flow 289
Streptococci 132
Streptococcus mutans 34, 122, 203, 211, 289, 298
– *sanguis* 211
Sucrases 122

Tribology 312
Tooth enamel 193
– mineral 34
– wear 312
Toxicity 237

Veillonella alcalescens 211
